

OFFICIAL WHOLESALE MANUAL • DRAP PAKISTAN

PharmaDist ERP — Easy English User Manual

A simple, step-by-step visual operating guide designed for pharmaceutical wholesale distributors, warehouse supervisors, and order clerks. Every routine operation is explained in 1–2–3 steps with real screen illustrations.

Dashboard Cockpit & 6 Quick Action Buttons

Everything is 1-click away — No complex menu hunting required

When you log into PharmaDist ERP, you arrive at the **Wholesale Distribution Cockpit**. At the very top, you have 6 vibrant **Quick Action Cards** that allow you to create or record any transaction with a single click:

Figure 1: Main Dashboard featuring the 6 Quick Action cards and Pakistani Rupee (Rs. / PKR) live figures.

+ New Sale Bill (Green Card)

Sell medicines to client pharmacies and print instant DRAP wholesale tax invoices.

+ Add Factory Stock (Blue Card)

Enter new consignments received from pharmaceutical manufacturers with batch numbers and expiries.

+ Add Pharmacy (Purple Card)

Register new customer retail pharmacies, hospitals, or clinics and set their credit limit.

+ Add Supplier (Amber Card)

Register drug manufacturers, pharmaceutical suppliers, or authorized vendors.

+ Add Godown (Teal Card)

Configure storage godowns, cold storage rooms, or quarantine warehouses.

+ Record Expense (Red Card)

Log warehouse rent, electricity bills, delivery vehicle fuel, tea, and staff salaries.

Key Benefit: You don't need to hunt through sidebars. Over 95% of routine daily wholesale tasks are directly accessible from these 6 cards!

How to Change Your Admin Email & Password

Instant direct self-service in Settings — Zero technical assistance needed

If you want to update your system login email address or set a new password, open the Settings screen:

Figure 2: Top card in Settings: "Admin Login Email & Password (Apna Login & Password Badlein)".

1

Open Settings

Click on **System Settings** at the bottom of the left sidebar.

2

Enter New Email or Password

Right at the top, you will see the **Admin Login Email & Password** card. Type your desired email address and enter your new password (minimum 6 characters) in both password fields.

3

Click Save

Click the blue **Save My Email & Password** button. A green confirmation badge will appear and your new login details are instantly active!

Tip: If you only want to change your email address and keep your current password, simply leave the two password fields blank and click Save!

3

Entering Factory Stock (Purchase Intake & Batches)

Receive shipments, record batch numbers, expiry dates, and assign to godowns

When pharmaceutical shipments arrive from manufacturers, follow this procedure to record them into inventory:

PharmaDist ERP WHOLESALE PHARMA ERP

Purchases > New Search medicines, batches, invoices (🔍)

System Guide (📖) Apex Pharma Dist Main Hub

Direct Purchase Intake & Batch Creation

Book vendor consignment, register batch shelf-life, and commit stock to warehouse inventory.

Supplier & Consignment Metadata

Supplier / Manufacturer * [+ New Supplier](#) Supplier Invoice / Bill # Receiving Warehouse * [+ New Godown](#)

FEFO Test Pharma Supplier (Due: Rs. 0.00) e.g., SQ-INV-2026-99 Central Distribution Warehouse (MAIN)

Credit Terms: **Net 30 Days** • Outstanding Due: **Rs. 0.00**

Intake Date * Delivery / Arrival Date Consignment Memo / Notes

23-Sep-2026 dd- - - - - yyyy e.g., Seasonal bulk stock intake with free bonus goods

Purchased Medicines & Batch Allocation (1 Lines) [+ Add Line Item](#)

Specify batch codes, manufacturing/expiry dates, purchased quantities, bonus goods, and unit rates.

Medicine *	Batch # *	Location (Rack/Bin)	Mfg Date	Expiry Date *	Qty *	Bonus Qty	Cost (Rs.) *	TP (Rs.)
Select medicine	BX-2026-81	e.g., R-1	23-Sep-2026	22-Sep-2028	100	0	10	12

[+ Add Another Medicine Line](#) Total Physical Units to Receive: **100 units**

Upfront Supplier Payment Settlement (Optional) Invoice Breakdown Rs.

Figure 3: Purchase intake form with inline "+ New Supplier" and "+ New Godown" quick-creation buttons.

1 Open the Intake Form

Click the blue card **+ Add Factory Stock** on your Dashboard (or navigate to *Factory Purchase* in sidebar).

2 Select Supplier & Godown

Select the drug manufacturer. If the supplier is not in the list, simply click the **+ New Supplier** button right next to the dropdown to create it in 10 seconds! Select the destination warehouse (an inline **+ New Godown** button is also available).

3 Enter Factory Invoice Number

Type the invoice or consignment delivery challan number provided by the factory.

4 Enter Medicine, Batch # and Expiry Date

Select the drug item. Enter the **Batch Number** printed on the packaging (e.g. BX-2026-01), pick the **Expiry Date** using the calendar, and specify the received quantity and bonus units.

5

Enter Cost Price & Trade Price (TP)

Enter your purchase acquisition cost (Cost Rs.) and the wholesale trade price (TP Rs.).

6

Commit Stock

Click **Save & Receive Factory Stock** at the bottom. The stock immediately updates your warehouse inventory and credits the supplier ledger.

Field Name	Purpose & DRAP Standard
Batch #	Manufacturer lot code. Strictly tracked for recall and safety per DRAP wholesale standards.
Expiry Date	Shelf-life expiration date. Guides automated FEFO queuing to prevent stock obsolescence.
Bonus Qty	Free promotional bonus goods received under manufacturer trade schemes (e.g. 100 + 10 free).
Cost Price	Actual acquisition cost in PKR. Preserved historically to calculate true gross profit margins.
Trade Price (TP)	Standard DRAP wholesale price invoiced to customer retail pharmacies.

4

Booking Wholesale Sales & Automatic FEFO Allocation

Automated earliest-expiry batch selection and instant invoice printing

To invoice medicines to a pharmacy or clinic, click the green **+ New Sale Bill** button on your Dashboard. Follow these 3 easy steps:

Figure 4: 3-Step Sale Screen with inline "+ New Customer" button and green "FEFO (Earliest Expiry)" allocation badge.

1 Step 1: Choose Customer Pharmacy

Select the client pharmacy from the dropdown. If this is a new customer, click **+ New Customer** right above the dropdown to register them instantly without leaving the form. Select the sales representative if applicable.

2 Step 2: Add Medicines & Quantity (FEFO Automatic)

Pick the required medicine. The system automatically pre-selects the batch that expires earliest (indicated by the prominent green **FEFO (Earliest Expiry)** badge). Enter order quantity and any trade discount percentage.

3 Step 3: Save & Print Invoice

Click the green button **Create & Print Sale Invoice**. A formatted DRAP wholesale tax bill and vehicle delivery challan will open ready for immediate printing!

Credit Limit Protection: If a customer's unpaid balance exceeds their authorized credit limit, the system flags a warning to prevent unrecoverable bad debts.

Back to Customers

Onboard Customer Pharmacy

Register a new retail pharmacy, hospital dispensary, or institutional wholesale client.

Pharmacy & Business Identity

Commercial store name, classification, and proprietor details.

Pharmacy / Business Trade Name *

e.g. Popular Model Pharmacy & Dispensary

Proprietor / Pharmacist Name

e.g. Dr. Anwar Hossain

Customer Classification *

Retail Pharmacy / Chemist

Custom Client Code (Optional)

Auto-generated if left blank (e.g. CUST-0021)

Regulatory & DRAP Licensing

Mandatory wholesale medicine regulatory compliance and tax IDs.

Drug License Number (DRAP) *

License Expiry Date *

Figure 5: Customer registration screen capturing pharmacy details, proprietor name, and credit terms.

1

Pharmacy & Proprietor Name:

Enter business name (e.g. *Al-Shifa Medical Store*) and proprietor name.

2

Credit Limit (Rs.) & Payment Terms:

Set maximum allowable credit exposure in PKR (e.g. Rs. 100,000) and credit days limit (e.g. 30 days) to prevent bad debt exposure.

Stock & Batches Inventory Cockpit

Live stock balances, batch-level valuation, and expiry surveillance

Figure 6: Inventory Cockpit featuring "+ Add New Stock" and "± Correct Stock / Damage" controls.

Live Search & Filter:

Search across brand names, generic formulations, SKU codes, or batch numbers in real-time.

Near Expiry (<90 Days) Alert Box:

Batches expiring within 90 days are flagged in the watchdog counter, prompting promotional clearance or return-to-vendor.

7

Damaged Goods, Breakage & Stock Correction

How to reconcile broken bottles, expired losses, or physical audit variances

1

Recording Breakage or Damaged Goods:

Click the amber button **± Correct Stock / Damage** at the top. Select the medicine and batch, type the reason (e.g., "Broken bottles found in box"), set the quantity to negative (e.g. -2), and submit. Inventory updates immediately.

2

Physical Recount Surpluses:

Click the same button, enter a positive quantity (e.g. +5), and record the physical audit reason.

Recording Operating Expenses (Overhead Costs)

Rent, electricity, fuel, delivery, salaries, and daily tea expenses

Daily Expenses & Bills (+ Record Kharcha)

Record warehouse rent, delivery fuel, electricity bills, staff tea & lunch, salaries, and daily maintenance expenses.

Total Operating Expenses
Rs. 0.00
Across 0 expense vouchers

Direct Logistics & Fuel
Rs. 0.00
Route beats & delivery expenses

Office & Utilities

System Online
MySQL / FEFO Active

Figure 7: Expenses screen tracking operational cost heads and net derivations.

1

Click Expense Button:

Click the red card **+ Record Expense** directly on the Dashboard.

2

Choose Category:

Select the cost head: *Warehouse Rent, Utilities & Electricity, Delivery & Fuel, or Staff Welfare / Tea.*

3

Enter Amount & Save:

Enter the paid amount (e.g. Rs. 1,500) and save. This expense is deducted automatically from your gross profit to compute true **Today's Net Profit**.

9

Customer Collections & Money Receipts (AR Settlement)

Cash, cheque, bank transfer, and Raast receivable recovery

1

Navigate to Collections & Receipts:

Go to **Collections & Receipts** in the sidebar and click **+ Record Payment**.

2

Choose Customer & Amount:

Select the customer pharmacy (live outstanding balance displays). Enter recovered amount.

3

Print Customer Money Receipt:

After saving, print an official customer money receipt voucher for formal acknowledgement.

10

Supplier AP Settlement & Factory Payments

Manufacturer ledger reconciliation and payable vouchers

1

Open Suppliers Directory:

Navigate to **Suppliers & Accounts**. Outstanding payable amounts display for each vendor.

2

Record Payment Voucher:

Click on the supplier and select **+ Make Payment** to log the transaction and adjust ledger dues.

11

10 Centralized Reports & 1-Click Excel Export

Sales, stock valuation, expiries, customer dues, and native Excel (.xls / CSV) exports

Key Available Reports:

1. **Sales Report** (Daily and monthly sales breakdown)
2. **Inventory Valuation Report** (Total warehouse stock asset valuation)
3. **Customer Dues & Aging** (Receivables breakdown by age bracket)
4. **Expiry Watchdog Report** (Near-expiry and quarantined batch logs)
5. **Low Stock Reorder** (Medicines below safety reorder threshold)

1-Click Excel / CSV Export:

Every report includes an **Export Excel (.xls)** button for instant download and tax audit readiness.

12

Daily Distributor Routine (Standard Operating Procedure)

Morning opening, operational hours, and evening financial closing

Morning (08:00 – 09:00):

Open Dashboard. Check **Low Stock** and **Near Expiry** alerts. Print customer collection recovery sheets for your field salesmen.

Operational Hours:

Receive incoming factory consignments using + **Add Factory Stock**. Book pharmacy sales with + **New Sale Bill** and hand delivery challans to drivers.

Evening Closing (17:00 – 18:00):

Record money collected by field salesmen under *Collections & Receipts*. Log daily expenses with + **Record Expense**. Verify **Today's Net Profit** on the Dashboard before closing!

Need Assistance? Whenever you have a question, click the  **System Guide (ریسمانی)** button in the top navigation bar. This interactive visual guide is always right at your fingertips!
